

# AutosOnShow.tv

UK Turntable has teamed up with AutosOnShow.TV to bring you the latest in video streaming technology. We are now able to offer you video as an alternative to static photographs on your website. With video you can make the most out of your turntable and turn your website into a virtual showroom.

	<p>AutosOnShow.TV software is so revolutionary it has been selected as a finalist for Motor Trader's coveted Online Innovation of the Year award.</p> <p>The judges were looking for a genuine breakthrough in online activity which has delivered tangible benefits and raised the professionalism of the sector.</p>
---	--

Online shopping has revolutionized the way people shop. Footfall is down in showrooms – automotive internet searches are up. The average consumer spends 18 hours online before purchasing a car. Consequently the web has become crowded with dealers trying to compete for consumer's attention. Current websites offer little more than an electronic version of the old newspaper pullouts – videos will bring your website to life and give you a chance to showoff your cars in 360°.

You can get all of this in less than a minute! The software is easy to use and will work perfectly with your turntable.

## AutosOnShow.TV's 9 step patented solution:

	<p>Automatically controlled turntable for smoother and consistent results</p>		<p>Automatically controlled lighting</p>
	<p>360 degree spin of vehicle using bespoke capture software both inside and out</p>		<p>Any number of still photographs taken during the spin</p>
	<p>Collect vehicle details based on the registration for automatic integration (Optional*)</p>		<p>Automatically process the video and FTP to our global streaming servers</p>
	<p>Automatic instant delivery through websites via our integrated APIs</p>		<p>Safe automatic delivery via our iSafe technology for iPhone and iPad devices</p>
	<p>This all happens in under 60 seconds per car!!!!</p>		

\*an extra cost will be applied on a per vehicle basis when calling for vehicle details.
